

## History of the company

Howladar Washing Plant is a name of quality in the garments washing industry of Bangladesh. Howladar Washing services consider as one of the best by the garments & textile industry of the country since its inception. Howladar Washing Established in 1997 by Md. Golam Mostafa. This company as a member of **Bangladesh export oriented garments washing industries owners' association**. In a very short time of its operation Howladar Washing become one of the largest washing plants in Bangladesh. The company always tried at the level best to provide the management and factory labour with the modern technique of education and operation to make the services different from others. Now they are operating in more then two factories in Mirpur with 200 + management and factory labours, and also they have a Dyeing Industry. With more than 20 years of practical working experience in the washing industry, Howladar Washing has achieved a conception on garments washing need & technology. As the time passing company is adopting latest technology and giving the employees various training to care the customers with the updated need in the industry.

## **Message from the Owner's**

I'm proud of myself to say something about Howladar Washing plant is a name of quality in the garments washing industry of Bangladesh. We always tried at the level best to provide the management and factory labour with the modern technique of operation to make the services different from others.

Undoubtedly, I can assure our quality, competitive price and prompt delivery. Because we have highly qualified production Manager well Trained - workers and sufficient number of Inspectors, quality controllers etc.

I announced that washing sector is also earn foreign currency which is big silent contribute for the country.

I wish every success of this sector.
